Dear Charisse Canterino,

My daughter Julia has been attending Everything Grows (Middletown) for the past eight months. In that time, my husband and I have noticed tremendous growth in her vocabulary, gross motor, and social skills. I am writing to thank You, Kristen, Gina, and the entire staff of Everything Grows for playing a major role in her progress.

I have been more than impressed with your center since the first day I came to inquire. I was very nervous about leaving my daughter in someone else's care last September. Julia's teacher Nancy eased my worries a little bit more each day. Nancy is an amazing teacher, her passion and knowledge for teaching is apparent as I watch her with the children. She has gone above and beyond to give Julia everything that she needs. Although I am sad to know that Julia will not be with Nancy for long, I'm confident in knowing that her next classroom will be just as amazing.

When we arrive at the center in the morning, every staff member (even from other classrooms) greets us with warmth and enthusiasm. It has always pleased me to see how your staff takes the time to get to know my daughter, even if she is not in their class! It is obvious that you hire and manage individuals who love what they do. I myself have been a teacher for five years and I am truly impressed with your management, cleanliness, structure, organization, and affordability! I have recommended your center to many parents and will continue to do so.

Thank you again for opening and running such a great childcare and learning center. You have made it easier for so many parents to go to work everyday knowing that their children are safely and happily growing. I wish you many years of continued success!

Thank you,

Jodi Tanner
